Kansas City reports considerable activity in general lines as does Omaha, where improved weather and good roads have stimulated business.

Planting throughout Nebraska is being pushed, but the crops need rain. At both cities last mentioned live stock interests have improved.

The industrial feature of the week is found in thirty-one strikes throughout the country, involving 40.000 employees, principally among building trades at New York and Chicago. Textile industries at Patterson and New York coal miners and coke operators in western Pennsylvania, also struck. While bank clearings for March are 16 per cent. larger than in February, they averaged about \$128,000,000 ality, contrasted with \$128,000,000 in February. Except for Febr. Ty lust and September and August of 1833, lust month's clearings total is the smallest of any month for six years; it is 31 per cent, less than last year.

Bank clearings this week aggregate than in March, 1892. Three mouths clearings aggregate \$11,125,000,000 — 30 per cent, less than last year.

Further advances in wheat are due to the scare based on frozen crop damage. The monthly report of world's supply of wheat indicates the United States of wheat indicates the United States will carry over more available wheat to July 30 than on any like date except in 1855. On April 1 the world's wheat stock was smailer than one year ago, the like of which has never been reported sinc. February, 1891. Exports of wheat (flour included). Exports of wheat (flour included), both coasts United States, amount to 2,778,000 bushels this woek against 2,865,000 bushels tast week, 2,675,000 bushels in the weeks a year ago, and atriffe less than 2,000,000 bushels two and three years ago.

There were 189 business failures reported to Bradstreet's this week, against 246 last week and 186 in the week a year ago, 160 two years ago and 178 three years ago.

Seigniorage Veto Has Greatly Relped Business. New York, April 6.-R. G. Dun't

cokly review of trade says: Improvement in business has contin

ued since the president's veto, which has been sustained in the House.

But the best news of the week is reat decrease of failures, of which full great decrease of failures, of which full returns are given for the first time by months in the quarterly statement. The number was 2,000 in January; 1,-202 in February and 1,005 in March. The commercial itabilities were \$31,329,887 in January; \$1,329,419 in February and \$14,780,802 in March. Nearly haif the commercial habilities were of firms failing during the first mouth; much more than haif of the trading liabilities, 54 per cent, of the unautfacturing habilities and 49 per cent, of the other commercial liabilities. Moreover, meatly two-thirds of the banking liabilities were of failures in the first mouth and over haif of the railroad liabilities, Though the number of commercial tailures, 4,297 in the United States, was never equalled in any quarter until the third quarter of last year, the sverage of Babilities is only \$14,840, which is lower than appeared in the records for thirty-eight years at any time closely preceding any serious reverse. The degree of commercial soundness and health thereby indicated gives ground for hope that the liquidations consequent upon the disaster of 1831 have been in a large measure accomplished.

Wheat has been lifted about 4 cents returns are given for the first time by

ished.
Wheat has been lifted about 4 cents greports of serious injury to the ant, but the accounts are more than sually conflicting and there is much isually conflicting and there is much uncertainty about the extent of the uniony. Western receipts were 1.711,147 bushels for the week against 2.170,971 last year, but the exports from the Atlantic ports were 749,477 bushels against 1.042 35 last year. Corn has declined 1% cents with western receipts of 2.206,169 bushels. Pork illustrates the contrariness of the hog by talsing half a dellar, and lard is a shade higher.

The failures for the past week have been 349 in the United States against 195 last year and 25 in Canada against 26 last year.

CHICAGO GENERAL MARKETS

Chleage, April 6.

It was a wild uprour day in the wheat pit. First there was a drop of Hg cents in May and then a series of jumps intil it had advanced 2% cents, and later a sudden collapse of Hg, with a gain of Mg. at the end. Spreaders who had been working in the expectation of July going to a premium of Hg cents were stranded by those months coming together for a few minutes with a clash and the covering of a line of short wheat for a Baltimore house who found it was unable to respond to further margin calls, were among the reasons for the great excitement which ruled during the greater part of the session.

END OF THE HALLETT AND SMITH MURDER TRIAL

Chirpillod Pleads Guilty to Incest and Is Sentenced to Three Years Imprisonment-News Notes.

Provo, April 6, 1894 .- The case of the People vs. C. H. Hallett and James H. Smith was concluded today. The defense rested yesterday evening and the prosecution introduced a little rebuttal testimony, after which W. H. King opened in an hour's argument, at the conclusion of which court adjourned until the afternoon. Attorneys D. D. Houtz and George Sutherland followed for the defense and Judge Judd closed

In the stillness of the night is sufficiently startling. What if no aid be at hand or we know not whence the crycomes? This is not the case with that comes? This is not the case with that mute appeal made to the resources of medical science, ever ready, ever available by disease on every hand. A prompt means of self help for the malarious, the rheumatic, the dyspeptic, the billous, and persons troubled with impending kidney complaints is to be found in Hostetter's Stomach Bitters, an ever "present help in time of trouble" for all such hapless individuals. They should not delay a moment in seeking its aid. Experience has shown its wide utility, the recommendation of eminent physicians everywhere sanction its use. Nervous, thin, debilitated invalids gain bodily substance and vigor by a course of this fine invigorant, which is eminently serviceable, also, to the aged and con-
